

vivre ALUCLAD

COMPOSITE CLADDING FOR EXTERIORS & INTERIORS

LOUVER PANELS &
SIDING BOARDS FOR

EXTERIORS

THE 1ST COMPREHENSIVE RANGE OF PANELLING OPTIONS FOR EXTERIORS
FROM THE HOUSE OF

vivre PANELS

WHY AluClad?

100% Reinforced Core

AluClad is 100% Re-Inforced. This makes it significantly superior in strength & rigidity compared to other cladding materials such as WPC & PVC Soffit which are hollow.

Natural Timber Finish

AluClad is finished with a high performance Exterior-Grade wooden vinyl film on top. This is manufactured using special additives making it impervious to UV rays & all weather.

A European Product

AluClad is made entirely using advanced European technology to make it the premier product for cladding in exteriors.

features

insect proof

non warping

color stability

water resistant

L-PROFILE **LATIN WALNUT**

Height: 9 ft (2750 mm)
Width: 22 mm + 17 mm
Thickness: 1.6 mm

Vivre L-Profiles are used for finishing edges of your composite facade cladding. This L-shaped edge trim offers unparalleled durability in corners, columns, windows, rakes, and step-risers. Factory-applied powder coat or anodized finishes will keep their sharp appearance for many years with little maintenance.
